INTRODUCTION.

Again our labor of collecting, compiling and printing the material for this annual is completed, and we feel confident that in no previous issue has the work been done more thoroughly in all its parts. Our canvassers have been men of natural ability for the duties, and nearly all of them have enjoyed from ten to twenty years' experience in the business. By these aids we have visited every building whatsoever within the limits of Troy, West Troy, Green Island, Lansingburgh and Cohoes; and at each place have carefully noted the name, business or profession, and location of every male over twenty years of age, and of every female who may be at the head of a household, or engaged in any trade or profession. Notwithstanding it is generally known by our people that within these pages a complete directory record may be found of all the inhabitants in the above named places, yet but few fully realize the great extent of territory which they embrace, or the labor required to canvass it. To give a more comprehensive idea of its magnitude, we will say that, on the east side of the Hudson, we canvass from the south boundary line of Troy to the north boundary line of Lansingburgh, and on the west side of the Hudson, we include all from half way between West Troy and Albany, to the north boundary line of Cohoes, and through all of these streets must our canvassers not only pass once, but in a large majority of them he must go through twice (up on one side and down on the other) to collect the material for this publication; just the number of miles of streets, alleys, etc., there may be within these limits we are unable to say, but we venture to predict there are so many more than the most of our people have presumed, that if the correct figures should here be given, many would be found so incredulous as to doubt its accuracy.

Our merchants and manufacturers having experienced the general depression in business which those of other cities have felt during the past year, is the principal reason why we cannot boast as we have annually done for many years, of a large increase of names for the "New Directory," and while we may frankly concede that our population has not increased during the past twelve months as it has formerly done, yet we can say from good authority that the percentage which may have fallen off, has been but very slight; less, by far, than the average of that in other cities of the country. Troy need have but little fear that she will take many steps in a backward direction; her business men are not of the type to produce such a state of things; but on the contrary, they ever have been, and are still full of activity, enterprise, honor and everything requisite to insure a prosperous future. While our business men are of this class, and while the almost complete railroad and steamboat facilities continue which we now possess, there need be no fear but we shall continue to grow and prosper.

The first railroad car entering the city was upon the Troy & Ballston R. R., in the year 1835. The next railroad connecting with us, was the Troy & Schenectady, which was completed in 1842. The first "through" train on the Hudson River R R. passed up River street in 1851. To-day, which is only about forty years since the first car arrived, we can boast of having more than one hundred trains arrive and depart daily from our Union depot. In addition to the railroad accommodation, we have the finest steamboats that float on any river of the world. Our elegant boat the CITY OF TROY, which was completed one year ago, and her consort, the SARATOGA, which made her first landing at our dock at 4:40 o'clock on the morning of June 13th, of the present year, are each so elegant, comfortable and complete in all of their parts, that they must, while the present able and courteous officers continue their management, reap more than their full share of the river travel.

We have frequently alluded to the difficulties which many encounter while looking into the Directory for information, still we feel called upon to again remind them that ALL names are arranged in *strictly* alphabetical order, according to the manner in which they are spelled instead of their pronunciation; therefore, in looking for the name of a person which is spelled RILEY, remember it cannot be found on the same page with those which are spelled REILLY, and that such names as LAUGHLIN, MCLAUGHLIN and O'LAUGHLIN, also PAINE, PAYNE, and also RAY, WRAY, etc., are each to be found on different pages of the book; consequently in looking for a name, with the spelling of which you are not familiar, you should, before concluding it has been omitted, not only look at the various ways of spelling a name having the same pronunciation, but also at those which are pronounced and spelled similar to it. If those who hastily glance at the Directory for a name, which they do not find, and hastily declare the book at fault, will but carefully consider and act upon the above hints, they will find far less wanting in both the Directory and themselves.

Of those whose names appeared in the first Troy City Directory, published in 1829, we give below a list of such as have died during the past year: Henry Rousseau, Albert Richards, G. W. L. Smith, Thomas Symonds, Dr. Alfred Wotkyns, David McMurray, and Capt Amos Comstock.

The complete set of Troy Directories, which are on file at our store, are open to the inspection of our patrons at all times during business hours.

We feel under special obligations to our advertising patrons, and those who have occasion to consult the Directory should feel the same; for without this patronage, much of the valuable information herein contained would necessarily either have to be omitted, or a greater price charged per copy for the book. It is with us as it is with all newspaper publishers; we sell copies of our publication at a price far below the cost of production, and it is the income from this advertising patronage alone that enables us to do so. We wish to impress this fact more firmly upon the minds of our business men, and to urge upon them the great necessity of their bestowing more liberally their advertising patronage upon the Directory, and thereby reap its benefits and encourage us to keep the work up to its present high standard. It is a duty which they not only owe to the public, but also to themselves, and instead of it being a loss, it will prove to be a source from which they will derive an income.

CHANGES MADE IN COMPILING THIS EDITION.

	Troy and Lans.	*Cohoes.*	*West Troy.*	*Total.*
Names in last year's edition	20,010	5,376	3,999	29,385
Names in this edition	19,214	5,429	4,555	29,198
Total decrease from 1876 to 1877				187
Names added in preparing this edition				6,256
Names erased in preparing this edition				6,443
Changes in names, business and locations				8,104
Whole number of changes and additions made in preparing this edition				20,803

Of the 29,385 names that were printed in the three departments of the Directory last year, only 14,838 remain in this issue without some alteration. By comparison, it will be seen that, on an average, about 55 per cent. of the names in the last year's edition remain the same in this, and that about 22 per cent. of the names in this issue were not in the Directory of last year.

STREET DIRECTORY.

GIVING the name of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, you look at Second street, on page 13, and find that Liberty street crosses at 156, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

REQUIREMENTS FOR ADMISSION.

Previously to examination the candidate must present testimonials of good moral character to the Director of the Institute.

For admission to Division D, at the opening of the Winter Session, the candidate must be at least sixteen years of age, and pass satisfactory examinations in Arithmetic, Geography, English Grammar, including Spelling; six chapters of Davies' Bourdon's Algebra, and five books of Davies' Legendre's Geometry. For admission to advanced standing, at the opening of either the Winter or Summer Session, the candidate must be correspondingly older, and pass satisfactory examinations in the same, and also in all the previous studies of the Division which he proposes to enter. These examinations are extended and rigorous, including both Principles and Practical Examples.

SESSIONS AND VACATIONS.

The Scholastic year is divided into two Sessions of nineteen weeks each. After the first, or Winter Session, there is a vacation of one week; and after the Second or Summer Session, there is a vacation of thirteen Weeks.

The Scholastic year of 1877-78 will commence on the 13th September, 1877.

Ward Boundaries.

The city is divided into five wards bounded and described as follows:

FIRST WARD.

All that part of the city included within the following lines, to wit: Commencing at a point in the Mohawk river, where the center line of Vliet street extended, intersects the boundary line of the city, thence westerly along said line and the center line of Vliet street to its intersection with the Erie canal, thence southerly along the center of said canal to the center line of Cataract alley, extending westerly to the Central railroad, thence westerly along said line to said railroad, thence northerly and westerly along the center of said railroad to its intersection with the center of the Boght road, thence westerly along said Boght road to the western boundary line of the city, thence northerly and easterly along the boundary line of the city to the place of beginning, shall comprise the first ward.

SECOND WARD.

All that portion of the city comprised within the following lines, to wit: Commencing at a point in the Mohawk river where the line of Vliet street extended, intersects the boundary line of the city, thence easterly and southerly along said boundary line and the center of the south branch of said river as it flows easterly of Simmons' island, to a point directly east of the south end of said island; thence in a direct line, to the point of intersection of the center of Pine street with the center of the Champlain canal, thence along the southern boundary line of the second ward of the village (now city) of Cohoes, to its intersection with the Erie canal, thence northerly along the center of said canal to the center of Vliet street, thence easterly along Vliet street and the line of Vliet street extending to the place of beginning, shall comprise the second ward.

THIRD WARD.

All that part of the city comprised within the following lines, to wit: Commencing at a point in the center of the south branch of the Mohawk river, directly east of the south end of Simmons' island, thence southerly along the center of said south branch to a point where the center line of Cedar street extended easterly, intersects the same, thence westerly along said line and thence westerly along said line and the center line of Cedar street to the center of Saratoga street, thence in a direct line, to the center line of Columbia street where it intersects the center line of Mohawk street, thence westerly along the center line of said street to the center line of the Erie canal, thence northerly along the center line of said Erie canal to its intersection with the center line of Cataract alley, extending in a direct line to the center line of the New York Central railroad; thence easterly along said line of Cataract alley, and the southerly boundary line of the second ward of said city as hereinbefore defined to the place of beginning, shall comprise the third ward.

FOURTH WARD.

All that portion of the city lying south of the southerly line of the third ward and south of the center line of Columbia street extended, to the western bounds of the city, shall comprise the fourth ward.

FIFTH WARD.

All that part of the city included within the following lines, to wit: Commencing at a point where the center line of the Erie canal intersects the center line of Columbia street, running thence northerly along the center line of the Erie canal to a point where it intersects the center line of Cataract alley extended, in a direct line, to the center of said canal; thence running westerly, in the direct line of Cataract alley extended, to the center of the track of the New York Central railroad; thence northerly along the center line of said railroad track to the center of the Boght road; thence running westerly along the center line of said road, to the westerly bounds of the city, thence running southerly and along the west bounds of the city to the center line of Columbia street; thence easterly along the center line of Columbia street to the place of beginning, shall comprise the fifth ward.

This Company owns the entire water-power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall one hundred and twenty feet, giving nearly ten thousand horse-power. The Company's gate-house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the Company, with land for factory buildings, in perpetuity, at an annual rental of about twenty dollars per horse-power, and considering the locality, is the cheapest in the country. It is an unfailing power, and during the past few years, while most of the water-powers in the country have failed for a time, Cohoes has had an abundant supply, without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal, or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

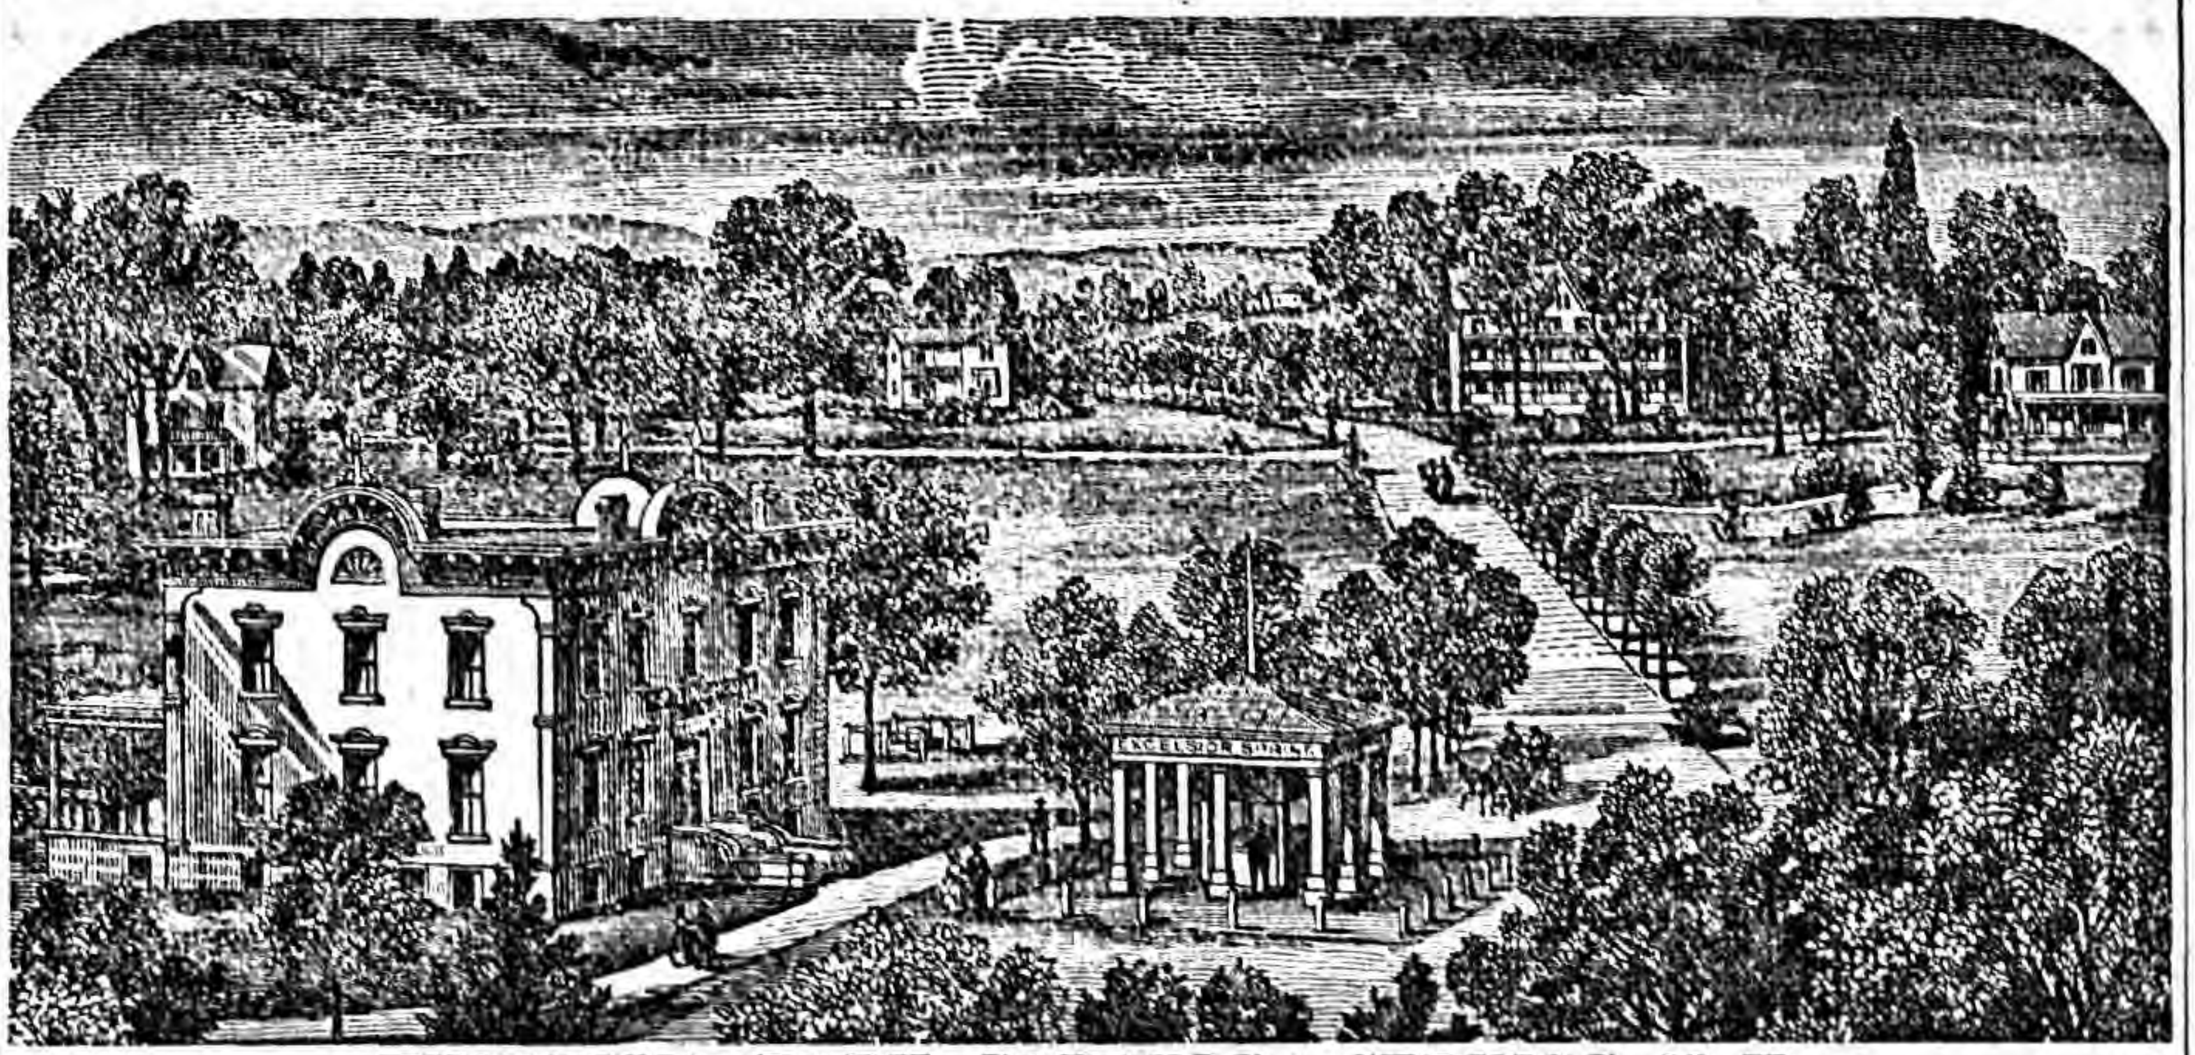
EXCELSIOR AND UNION SPRINGS



EXCELSIOR PARK, SARATOGA SPRINGS, N. Y.

IN BOTTLES.

BOTTLE MARK.

The waters of the above springs are put up in Pint and Quart Bottles, and packed in good order for shipping. Pints in boxes of four dozen each, and Quarts in boxes of two dozen each.

They are also shipped in Lawrence's Patent reservoirs (Barrels lined with pure Block-Tin) for placing on draught.

The Water of the Excelsior Spring is thought to be unequaled by that of any other Spring at this world-renowned Watering-Place.

It flows directly from the primeval rock (through a tubing fifty-six feet in depth), and is thus obtained of great purity and excellence, and with a large amount of Carbonic Acid Gas.

The EXCELSIOR WATER ON DRAUGHT is dispensed by our customers at their counter *precisely as it flows from the Spring*, WITHOUT CHARGING IT WITH GAS.

THE UNION SPRING is situated about one mile east of the Town Hall at Saratoga Springs, near the centre of Excelsior Park, and about ten rods north-west of the Excelsior Spring.

The waters of the Excelsior and Union Springs act as a Cathartic when drank before breakfast; while at other times during the day they are very agreeable and healthful as a beverage.

ON DRAUGHT.

TRADE-MARK.

From ALFRED L. LOOMIS, M. D.

Professor of the Theory and Practice of Medicine in the University of New York. President of the New York Pathological Society, etc.

During my whole professional life I have been accustomed to use freely the Water of Congress and Empire Springs. About six months since, accidentally, I was furnished with a few bottles of the "Excelsior" Spring Water, and found it so much more agreeable to the taste and pleasant in its effects than either Congress or Empire Water, that I have since used it myself, and recommend it to patients requiring a gentle Cathartic and Diuretic.

ANALYSIS OF THE UNION SPRING WATER.

LABORATORY OF THE SCHOOL OF MINES, COLUMBIA COLLEGE, *New York, March* 26, 1873.

The sample of Mineral Water taken from the UNION SPRING, Saratoga, contains in one U. S. Gallon of 231 cubic inches:—

Chloride of Sodium.....	458,299 grains.
Chloride of Potassium.....	8,733 "
Bromide of Sodium.....	1,307 "
Iodide of Sodium.....	0,039 "
Fluoride of Calcium.....	trace "
Bicarbonate of Lithia.....	2,605 "
Bicarbonate of Soda.....	17,010 "
Bicarbonate of Magnesia.....	109.685 "
Bicarbonate of Lime.....	96.703 "
Bicarbonate of Strontia.....	trace "
Bicarbonate of Baryta.....	1,703 "
Bicarbonate of Iron.....	0,269 "
Sulphate of Potassa.....	1,818 "
Phosphate of Soda.....	0,026 "
Biborate of Soda.....	trace "
Alumina.....	0,324 "
Silica.....	2,653 "
Organic Matter.....	trace "
Total Solid Contents.....	701 $\frac{174}{1000}$ grains.
Carbonic Acid Gas in one gal....	384 $\frac{969}{1000}$ cubic inches.
Temperature.....	48 deg. F.

This Water is of excellent strength. It is specially noticeable that the ratio of Magnesia to lime is unusually large, which is a decided advantage.

Directions to Key Holders.

Upon seeing a fire in your immediate vicinity, or having positive information of a fire near your signal box, unlock the door, and pull the hook all the way down and let go of the hook; then wait a few moments, and if you hear no ticking in the box, or alarm on the bells, go to the next nearest box to the fire.

Never open the box or touch the hook except in case of fire.

Never pull the hook if the bell in the box is ticking.

Never give an alarm except from the box nearest the fire.

Be sure the box is locked before leaving it.

Never let the key go out of your possession, unless to some responsible person for the purpose of giving an alarm, or when called for by the Superintendent.

The number of the box signaling the fire will be struck upon the gongs of all the engine houses; also upon St. Paul's, St. Peter's, St. Mary's, St. Joseph's and St. Patrick's church bells. For example: To announce an alarm from Signal Box No. 24, the bells will be struck TWICE, and, after a pause of seven seconds, will be struck FOUR times: thus 2—4.

The number of the box will be repeated at intervals of twenty seconds until a sufficient alarm has been sounded.

The Steamers of this line are furnished with neat and elegant Family and State Rooms, and Berths, and are replete with all the comforts and conveniences that can be desired by the traveler. Baggage taken free to and from Cars and Boats at Troy. This Route offers special inducements to parties of pleasure, as well as business men, traveling between the North and New York in the heat of Summer, by which the monotony of a long Railroad ride, and the annoyance of dust in crowded and noisy cars are all exchanged for a quiet, pleasant and expeditious Steamboat Ride.

Leaving New York, from Pier 49, N. R., foot of Leroy St., arriving at Troy in time for all trains going North, East and West.

Leave Troy, foot of Broadway, on arrival of Trains of Rensselaer & Saratoga, Troy & Boston and Connecting Rail Roads, arriving in New York in time to make sure connection with all trains South and East.

All Freight Handled with Care, and Forwarded with Safety and Despatch.

☞ For Passage or Freight, apply on Board, or at Office, foot of Broadway.
